

WEB-QUEST: DISCOVERING NEPTUNE CANADA'S UNDERWATER LABORATORIES!

Students: Using the information found on the S.O.L.E. Website (www.oceanlink.island.net/SOLE), research three of the NEPTUNE Canada underwater laboratories ("nodes") and fill out the following table. Use jot notes to write in the boxes, and only record the important information.

	Folger Passage Node	Barkley Canyon Node	Endeavour Ridge Node
Location Where is the node located? How deep are the instruments? What is the latitude and longitude?			
Habitat Description What does the habitat look like? What are the unique features?			
Research Why are scientists interested in this Node?
